

FIGHT FASCISM TOGETHER

The triangles on this poster signify the groups as they were differentiated in the Nazi concentration camps. It was typical for fascism to divide citizens into categories. Minorities were separated from the rest of society and were blamed for everything that had gone wrong.

In addition to the approximately 6 million Jews who were the targets of a complete annihilation policy in the Nazi Holocaust were an estimated 5,5 million "enemies of the German state", criminals and 'socials', the insane, homosexuals, Jehovah's Witnesses, political offenders such as communists and socialists, and Roma and Sinti. Estimates of the number of Gypsies murdered are between 200,000 to 500,000. The estimated number of homosexuals killed in the camps varies from 10,000 to 15,000. Around 100,000 men and women were arrested of the German homosexual community of around 1,500,000 men and women.

With this poster we do not aim to divide ourselves, but to raise awareness about the dangers of fascism, racism and related intolerance. As you can see, fascism had many targets. Nowadays intolerance focuses on slightly different targets, but who is to say who is next? Think about it. Maybe you'll come to the same conclusion we did: **We need to fight fascism, anti-Semitism, the persecution of Roma and Sinti, homophobia, racism and related intolerance TOGETHER!**

Signification of the badges in Nazi concentration camps: yellow star: Jew, red triangle: political prisoners, pink triangle: homosexuals, black triangle: Jehovah's witness, black triangle: Roma and Sinti ('gypsies') and 'socials', green triangle: criminals
