Since 1993 UNITED has been monitoring the fatal results of the policies summarised as the building of a 'Fortress Europe'. Around 14.500 deaths (a.o. those listed above) in the period 1993-2010 can be put down to border militarisation, asylum laws, detention policies and deportations. These are the consequences when Europe shuts its doors. UNITED for Intercultural Action - the European network against nationalism, racism, fascism and in support of migrants and refugees - unites more than 550 organisations from 48 European countries. We want to wake up the policy-makers and show them the human cost of their decisions. www.unitedagainstracism.org
