

THE FATAL POLICIES OF 'FORTRESS EUROPE'

1993-1998

UNITED FOUND PROOF OF THE DEATH OF 1600 REFUGEES

EUROPE TODAY

THE LIST GROWS DAILY!
1000s MORE NEVER FOUND

2013

UNITED'S 'LIST OF DEATHS' HAS GROWN TO 18000

NO MORE DEATHS
TIME FOR CHANGE!

Since 1993 UNITED has been monitoring the fatal results of the policies summarized as the building of 'Fortress Europe'. In the period 1993-2014 more than 20.000 deaths (including those listed above) can be put down to border militarisation, asylum laws, detention policies & deportations.

Most probably 1000s more are never found. These are the consequences when Europe shuts its doors and eyes. Our message has been the same over the years - with increasingly higher numbers - each unnecessary death is one too many.

How big must our message get before something will CHANGE? We need to wake up policy-makers and show them the human costs of their decisions. Take responsibility, ACT NOW!
